

The Authenticity of Italy
from the Earth to Your Table

Our roots are in the heart of the province of Salerno, a territory rich in agricultural traditions and unique products.

This deep connection with our land is an added value that is reflected in the care and selection of the products we offer.

Fresh products from Campania, Puglia, Lazio and Abruzzo. For 40 years, MAC NATURE, based in the heart of the fertile province of Salerno, has been passionately selecting and distributing the best that nature has to offer.

Our experience and deep knowledge of the territory allow us to offer you genuineness, freshness and authentic flavors.

MAC NATURE collaborates exclusively with selected trusted farms in Campania, Puglia, Lazio and Abruzzo, to guarantee you a wide range of fresh, seasonal and excellent products.

This synergy allows us to offer you the best of each region with care and respect for nature.

From seed to harvest: controlled supply chain

Our attention begins with the selection of seeds, continues with rigorous quality control at every stage of growth, up to the moment of manual harvesting, carried out with techniques that respect the product and the environment. This integrated approach allows us to offer safe, nutritious and always fresh foods.

Our attention to quality and food safety is certified by the Global G.A.P. COC and IFS Broker standards.

These important certifications are your guarantee of traceable, safe processes that comply with the highest international standards.

Logistics and distribution

Thanks to a reliable logistics network, our products are transported in refrigerated cells at controlled temperatures, preserving their freshness and organoleptic properties intact. Our specialized staff takes care of every phase of transport, ensuring that the goods arrive on time and in optimal conditions.

From Southern Italy, our fresh vegetables and fruits reach the centers of Verona, Padua and Milan every day, where they are sorted and distributed to the main European markets, guaranteeing quality and punctuality throughout the entire supply chain.
